

LOCKHEED MARTIN

ALPHA PILOT

BRAINCHILD
INNOVATION, LLC
SPONSORSHIP DOCUMENT

2019

OUR MISSION

AlphaPilot is the first large-scale open innovation challenge of its kind focused on advancing artificial intelligence (AI) and autonomy. This event was created by Lockheed Martin, NVIDIA and Drone Racing League (DRL). BrainChild Innovation, LLC accepts the challenge; the competition takes place in August 2019.

OUR VISION

BrainChild Innovation, LLC provides Enterprise Cloud and Device-powered AI Integration and Autonomous Unmanned Vehicle Solutions for Infrastructure Inspection and Asset Monitoring. We specialize in developing Acute Anomaly Detection algorithms used by autonomous ground (UGV), aerial (UAV) and marine vehicles (UUV). Deep Learning and Machine Learning Models are scalable and application-specific to a client's individual needs. We also provide expert hardware, and automation software setup/installation, custom Augmented Reality/Virtual Reality hardware integration, and routine update/maintenance service agreement options. Our company is comprised of core founding team members and close network of experts, which range from Robotic Engineers, System Test Engineers, Aerospace Engineers, Data Scientists, Augmented Reality & Virtual Reality Developers, High-Performance/Quantum Computing Engineers, Full Stack Developers and Security/Network IT Specialists. We are headquartered in the beautiful Glenview neighborhood of Oakland, CA and additional laboratory workspace in Newark, California.

SPONSORSHIP PACKAGES

We are looking to raise \$10,000 in cash or more to pay for build and travel expenses. We welcome Food or Drink sponsors as well. If you would like to sponsor our team, please feel free to reach out to us directly with more details of how we can work together.

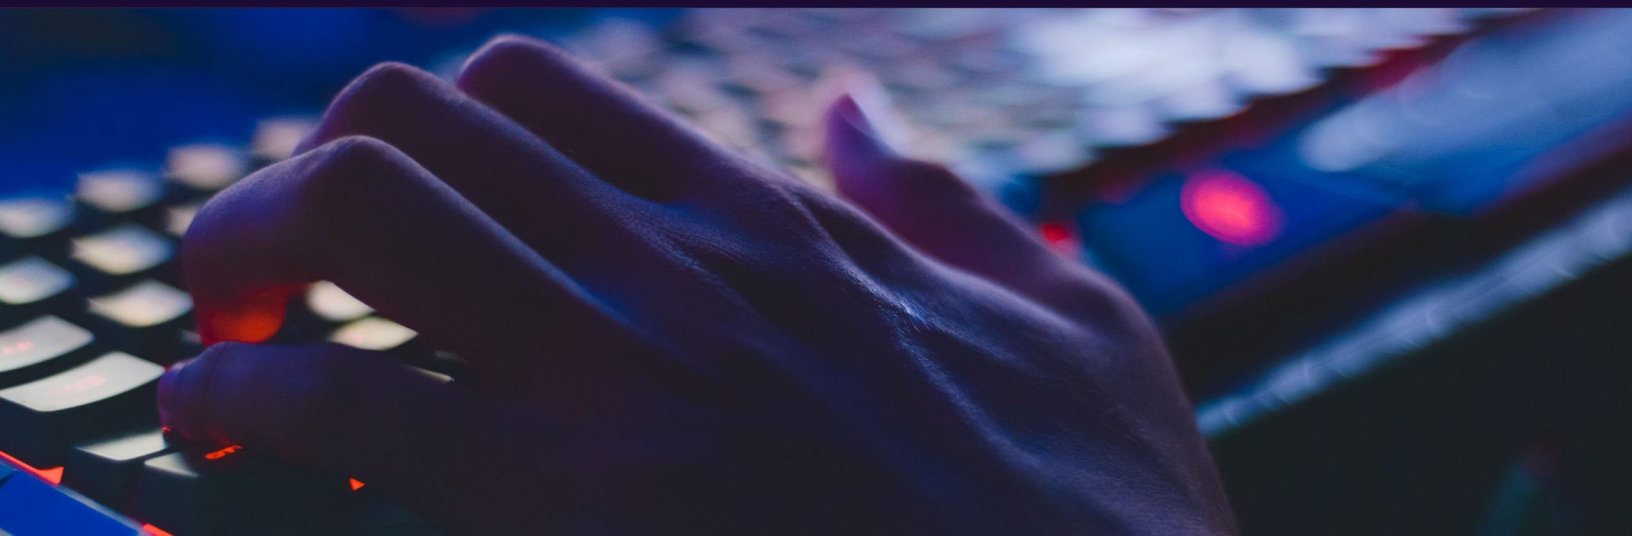

Package	Price
KILOBYTE	\$500
MEGABYTE	\$1,000
GIGABYTE	\$2,500
TERABYTE	\$5,000
